## EDUCATION

**Shahjalal University of Science and Technology (SUST)** Dec 2019 - July 2025
*Bachelor of Science in Civil Engineering (Sylhet Engineering College)* Sylhet, Bangladesh
Cumulative GPA: **3.57 / 4.00**

**Undergraduate Thesis:** *Geotechnical applications of construction and demolition waste and future prospects in Bangladesh - a comprehensive review.* Supervised by Prof. Dr. Shriful Islam.

***Key Focus:*** Evaluated the geotechnical properties of construction and demolition waste (CDW) and its effectiveness in soil stabilization and ground improvement. The work focused on the sustainable application of CDW in Bangladesh's infrastructure to reduce environmental impact and provided a framework for using these waste materials as sustainable alternatives to depleting natural aggregates.

## RESEARCH INTERESTS

- Geotechnical Engineering
- Ground Improvement Techniques
- Slope Stability
- Foundation Design
- Sustainable Construction Materials
- Soil Stabilization
- Environmental Geotechnics
- Sustainable Design of Base, Sub-base, and Sub-grade

## RESEARCH AND PROFESSIONAL EXPERIENCE

**Shahjalal University of Science and Technology (SUST)** Feb 2026 – Present
*Graduate Research Assistant* Sylhet, Bangladesh

- Researching sustainable soil stabilization techniques using alkali-activated Areca Husk and Incense Stick ashes.
- Simulating and validating the bearing capacity and settlement characteristics of stabilized soils using advanced finite element analysis.

**Sylhet Engineering College** Jan 2022– Jul 2025
*Undergraduate Research Assistant* Sylhet, Bangladesh

- Conducted a comprehensive review of Construction and Demolition Wastes (CDW) utilization in geotechnical applications.
- Explored prospects of CDW-based materials in the context of Bangladesh.
- Conducted a PLAXIS 3D finite-element analysis on spread footings to evaluate the effect of a macadam layer on allowable bearing capacity.
- Co-authored a waste-to-energy assessment for Sylhet City Corporation, estimating daily energy potential from municipal solid waste.

**FAZ Engineering & Construction (Remote)** Jan 2024 – Present
*3D BIM Modeler* Sylhet, Bangladesh

- Created 3D BIM models for 15+ residential projects using Revit.
- Rendered interior and exterior views and videos using Enscape.
- Visited and surveyed multiple construction sites.

**Design & Development Solution (DDS)** April 2024 – June 2024
*Intern – Basic RCC Structural Design* Sylhet, Bangladesh

- Performed structural modeling of residential buildings using ETABS.
- Calculated loads acting on the foundation and designed structural components.
- Checked the serviceability and overall stability of the building model.

## LANGUAGE PROFICIENCY

Bangla **-** Native
English - **C1 (IELTS Academic – Band Score: 7.0)**

## TECHNICAL SKILLS

Programming: Python (Basic)
Document Creation: Microsoft Office
Simulation Software: Plaxis 2D/3D/LE
Engineering Software: ArcGIS, Revit, Enscape, ETABS, AutoCAD

## CERTIFICATIONS

**Certificate of Attendance:** *Teacher Seminar on Japanese Language Education for Life in Japan,* Organized by The Japan Foundation and the Institute of Modern Languages, University of Dhaka (Sylhet, May 2026).

**Certificate of Appreciation for Leadership:** Awarded by the *Department of Civil Engineering, Sylhet Engineering College*, for valuable contributions and dynamic leadership as an Executive Member of the SEC Civil Society (July 2025).

**Certificate of Participation:** *"Truss Trial"* at *exCEEd 2023*, organized by the Department of Civil and Environmental Engineering, SUST (March 2023).

**Conference Attendance:** *International Conference on Engineering Research, Innovation and Education (ICERIE 2023)*, Shahjalal University of Science and Technology (Jan 2023).
